

Bentham Footpath Group

We received help from the Council last year to purchase equipment intended to keep injured persons safe until rescue could be arranged. I am happy to report that we have not needed to use it.

One of the things that struck us hearing other organisations reporting last year was just how much good work goes on within our community to help others. We discussed this at our own AGM and agreed that we would fund our own group and its needs ourselves to enable funds to flow to those with more worthy causes. We admire what you are all doing.
